

SONIC HAVEN

SONIC HAVEN is the new melodic power metal band from Germany, founded by singer Herbie Langhans (Avantasia, Firewind, Radiant, Voodoo Circle).

In this very promising formation - signed by Frontiers Records - Langhans' exceptional voice meets solid and driving melodic metal with strong, pounding alternative elements. The sound is powerful, fast, hard, melodic and very versatile!

With SONIC HAVEN, Herbie Langhans has fulfilled his own long-awaited wish to start and produce a classic metal band again - a band consisting of professional musicians from his own circle of friends and a strong record label by their side.

André Hilgers (Bonfire, ex-Rage and many more) was the perfect choice for the drums. André and Herbie have shared the stage several times and have been good friends for years.

Next one on board: Herbie's long-time friend Dominik Stotzem (Beyond The Bridge, Enemy Inside, Purple Rising) on bass. They both used to tour together and have been wanting to start making new music together for years.

Carsten Stepanowicz completes the band's lineup on Guitars. Ever since Carsten joined the hard rock band Radiant, Herbie just knew, he had to have this virtuoso maniac for his new project.

Each band member brings his own style and experience to the music of SONIC HAVEN. This great combination of productive creativity results in a very special, personal and unique sound.

And here it is now: SONIC HAVEN - classic metal, with great melodies, energetic vocals, complex, infectious guitars and a rousing groove fraction.

The band is highly looking forward to an exciting journey and a successful collaboration with Frontiers Records.
